TOMMY

TOMMY is a simple garage with a "big belly". Its key feature is the maximum open space, so you can fit everything you need just how you like it. The doors are intentionally 3 metres high to maximize the full potential of the building and let in even bigger vehicles (motor homes, tractors, etc.). Tommy can fit a lot of stuff, still being compact from the outside.

TOMMY fits well with the house model **ANNIKA**.

I floor UA : **72m²**
I floor BOA : **72m²**
Ridge height : **5.7m**
Roof angle : **35°**
